Ah -- I was never made aware of that, hence the higher SF/assessment for 4286-007-001 on our 2018 submittal.

We will adjust our records to reflect that, but can we get a copy of something for our records to explain why it was reduced?

I try to maintain records for anything that differs from the Assessor data (for example, building permits of field calculations for buildings not recorded, etc.)

Is it okay to assume our other comments satisfactorily explained the changes for the other parcels/assessments you questioned?

I have SP in Council tomorrow and Weds, but will revise the submittal asap...should be Thursday at the latest but sooner if I can.

Thank you!

We reduced the assessment on parcel 4286-007-001 due to receiving communication from the stakeholder. Per our research, we reduced the building sqft to 4,840.

Dennis:

Thank you for the new APNs/obsolete parcels; they didn't show up when we pulled data last month. I will revise the levy and resubmit it next week.

In the meantime, attached please find my replies to your comments on all the parcels for which you requested more information. Please review these at your earliest opportunity and let me know if you still have questions or dispute any of the new numbers so we may try to resolve those as well with the resubmission next week.

Tara

Tara, see attached spreadsheet. There are some issues in the Venice County submittal data that need explanation and/or correction.

1) Parcels 4226-008-015, 016 & 017 are now 025 but you didn't submit the new parcel and assessment.

2) Parcels 4286-007-022 & 023 are now 031 but you didn't submit the new parcel and assessment.

3) For the next series of private parcels and one govt parcel, there is a discrepancy between the original assessment and the 2018 assessment as submitted. Please explain the difference.

Please get back to me ASAP, the County deadline is coming up and we have a lot of material to review and submit.
